

## Kinetic Data Adds Naviline to Partner Roster

***A pioneer in the BMC® network in France, Naviline will champion Kinetic Data's products to a new group of BMC customers.***

Kinetic Data's Australia office has added another partner to our global roster. Naviline—a business unit of SoftCompany Group—was one of the first BMC® Remedy® resellers in France and has been a BMC Software Premier Solution Provider since 1997. Naviline provides its customers with highly skilled expertise throughout their implementation projects—from preliminary studies to support and maintenance. The company has a strong relationship with both BMC consulting services and BMC education, and is involved in many strategic projects as part of the BMC Value Proposition.

Kinetic Data's partner program brings the company's products to enterprises around the world, to places such as South Africa, France, New Zealand, the United Kingdom and the United States. The program has gained recognition by the world's leading BMC resellers and systems integrators as a key component for achieving their growth objectives.
